

AnyCast Tablet to ClearTouch Setup

Power ON!

Turn on the tablet and Clear Touch, ensure your devices are in working order.

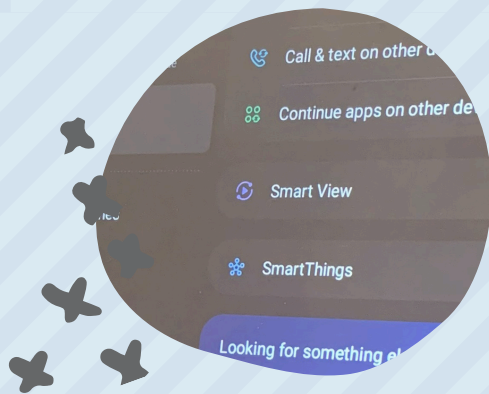

Anycast Setup

Be sure to plug the Anycast device into both the HDMI port in the BACK and the USB port in the FRONT of the Clear Touch.

Smart View

To cast, go to Settings on your tablet and search for SMARTVIEW. Click SmartView (twice) and the AnyCast option should appear. Click on that option and begin sharing.

Tips to Remember

Only 1 device can cast at one time. If having connection problems, check to see if a device is already casting.
